#### SPECIFICATION

Corrosion-resistant construction.

Complies with transportation regulations for safe transport.

Offers cost-effectiveness, compact size, and lightweight design for commercial advantages.

Constructed from rotomolded linear polyethylene for excellent resistance against shocks, temperature changes, chemical agents, and harsh weather conditions.

Additionally, its transparent design enables continuous visual monitoring of the fuel level.

Thanks to its highly smooth surface, it can be easily cleaned with regular detergents.

Side pockets, reinforced with zinc-coated carbon steel profiles, enable lifting with a forklift even when the tank is fully loaded.

The tank features a 220 mm diameter top hatch with a lockable screw lid and an Diesel air vent. device for proper ventilation.

The tank is equipped with a 2-inch loading cap that includes an integrated safety valve for added security.

#### FUEL TRANSFER UNIT

Self-priming Devil40P pump with a battery, with a flow rate of 40 litres per minute, equipped with a built-in bypass valve.

Pump voltage: 12 volts.

Automatic fuel nozzle: PA60.

Fuel meter: M24.

Antistatic rubber hose, length: 5 meters.

ES diesel filter.

#### CAPACITY

HT980 with a volume 960 litres.

#### EMPTY WEIGHT WITH PUMP

Weight: 105kg.

#### DIMENSIONS

HT980 Tank: Length 1830mm, Width 995mm, Height 1000mm.

#### DOCUMENTS & CERTIFICATIONS

Commissioning report.

EC Declaration of Conformity.

Instruction Manual Compliant with ADR Regulations for Proper Use of Fuel Transfer Devices and Equipment.

Successful Completion of Vibration Test According to ADR 2011.

Periodic Conformance Testing Service of Transport Tanks (IBC) Performed by Emiliana Serbatoi S.R.L. in Accordance with ADR Regulations.
